会津川口駅

Aizu-Kawaguchi Station

生活に溶け込む只見線

会津川口駅のホームで列車を撮影できるのはもちろんだが、上井草橋を渡って只見川の対岸から駅を望むと、背景に広がる街並みと相まって、ローカル線の趣が一層感じられる構図となる。春は岸辺の花々を、風が弱い日は川面に映る水鏡と一緒に取り込もう。

ジオラマのような駅と列車と街並みが味わい深い

The station, train, and townscape create a diorama-like atmosphere.

The Tadami Line as a part of life

Of course you can shoot the train from the platform of Aizu-Kawaguchi Station, but crossing Uwaigusa Bridge and looking at the station from the opposite side of the Tadami River, you will get a composition with the townscape spreading in the background and an even stronger sense of the local line. In spring, the river bank is lined with flowers and on days with little wind, you can capture the reflection that appears in the water.
